

A vibrant, abstract portrait of Gil Velazquez. The background is a complex, swirling pattern of bright colors including red, yellow, green, blue, and purple, creating a sense of motion and depth. The portrait of Gil Velazquez is rendered in a high-contrast, almost white style, with his eyes and facial features clearly defined against the colorful background. Water splashes are visible around the bottom and sides of the portrait, adding a dynamic and energetic feel to the composition.

My
World

Gil Velazquez

Welcome to My World

My World is a sophomore digital release following my 2013 digital release "[Where do we go from here?](#)"

This new production has taken me on a plethora of musical flavors and production techniques.

My musical influences have spanned so much over the years, and once again while I unconsciously pursue a variety of genres, it seems the style of what I do is just as colorful and chaotic as the cover art depicts.

My World is a genesis of a number of personal and tongue'n check messages that have worked its way into my songwriting over the years.

Once again I was looking for a theme, or cohesive glue for this next digital EP. Your own interpretation of what each track means is up to the listener (that's one of the many pleasures of music).

My hope is that you can enjoy the mixture of sonic flavors of “**My World**”.

“Always look up to the sky, day or night, and find your place, your inner peace, and cherish those larger-than-life moments that come around, sometimes only once.”

Enjoy and thank you for supporting my music.

Gil

Need Some Air (4:16)

Song & Lyrics by Gil Velazquez

Verses

Many times wondering
what I breathe, yeah, yeah
What can I do, to open up my mind
Look ahead, look behind
sometimes what I see aint' fair,
no, no, no
Deep down inside I try
I really, really want to
believe now.

Chorus (x2)

Need some air
to overcome what's in life
Need some air
before I go
Into the night

Verses

Every way I turn
I feel the burn
Every day I try,
another, another
choking sign
What am I gonna do for
you and me
to open up our minds
into the sky
To the magic cyan yeah
my hands feel the air...

Chorus (x2)

Need some air
to overcome what's in life
Need some air
before I go into the night

Bridge

Will you show me
how to breathe yeah
just maybe I'll understand
Will you take me
into the stratosphere
maybe then I'll see
the meaning of the air...

Gonna get your air now baby

Thank you....

As always, I would like to personally thank all of my friends, both listeners and musicians alike that have inspired me throughout my ever evolving songwriting journey. The awesome artistic and original music scene along the Jersey Shore has been such a part of keeping my eye on the goal of expressing, creating and delivering my work to you.

On a technical note, I personally want to thank Pier Giacalone of [HopetownSound Studios](#) for his generous guidance in all those little things as I migrated from one release to the next. In addition, a big thanks to Graham Cochrane ([Recording Revolution](#)), Kevin Ward ([Mix Coach](#)), and Michael Laskow of [Taxi](#) for that unexpected review of (Do Ya Thing) for enabling me to learn, better understand and grow as an artist and producer.

Go find "your world"...

Peace
